Analysis: Sundaram Asset Management

Fund Manager Comments

The Fund underperformed the reference index, the Nifty Midcap 100 TR Index during the month but outperformed the MSCI India Index. Key detractors were Gland Pharma (-11% on continuing woes regarding possible ownership change), Emami (-11% on sluggish demand conditions), Laurus Labs (-10% on pricing challenges and uncertain volumes), LTI Mindtree (-10% as valuations were stretched) and Page Industries (-10% on the back of inflation led slowdown in growth) which overshadowed strong double-digit gains from Kalyan Jewellers (+20% on strengthening franchisee pipeline and cheap valuations) and Bank of Baroda (+12% on improved asset quality and margins).

During the month, the Fund increased its weighting in the Healthcare sector as covid concerns re-emerged and reduced its weighting in the Financials sector as the sector had performed well year to date. Positions were enhanced in Fortis Healthcare, Laurus Labs and Zydus Wellness and top sliced in ICICI Bank, Axis Bank, Bajaj Finserv, Cholamandalam Investment and LIC Housing Finance. In continuation to the previous month's strategy, weighting was also increased in Coromandel Industries and State Bank of India. The Fund exited its position in L&T Technology Services on account of potential impact from slowing global growth. Partial profits were also booked in Varun Beverages to fund the above positions.

Economic data was positive during the month. Demand resilience continued to boost manufacturing growth with the Manufacturing PMI rising to a 26-month high of 57.8 in December, up from 55.7 in November. Services PMI hit a six-month high, rising from 56.4 in November to 58.5 in December. GST collections rose 15% yoy to INR 1.49 trn on the back of steady demand. Most other consumption economic indicators too showed strength during the month. Bank credit growth remained robust, growing at 17% yoy while passenger vehicle registrations rose 11% yoy. Fuel consumption picked up significantly during the month with diesel and petrol consumption rising 12 and 14% mom respectively. Power demand grew 10% yoy and railway freight grew 5% yoy. Inflation eased to 5.9% in November, the lowest level since December 2021 as food prices cooled off. However, total unemployment rate inched up to 8.4% during the month.

The Rupee depreciated by 1.6% underperforming its emerging market peers which depreciated by 0.8%. During the month, foreign exchange reserves continued its uptrend to USD 562.8 bn.

On the policy front, the RBI raised the policy repo rate by 35 bps while keeping the monetary policy stance unchanged at withdrawal of accommodation in a bid to contain inflation.

Like its global peers, the Indian market remained weak during the month as investors stepped to the sidelines spooked by the continued hawkishness of global Central Banks and the reemergence of Covid concerns. We remain positive on the medium and long term prospects of the Indian economy.

P/B (x)	3.1	3.4
Sales Growth (%)	15.7	6.7
Long Term Earnings (%)	17.5	16.3

Data Source: Morningstar Direct

As of November 30, 2022

Price/projected earnings for a stock is the ratio of the company's most recent month-end share price to the company's estimated earnings per share (EPS) for the current fiscal year. If a third-party estimate for the current year EPS is not available, Morningstar will calculate an internal estimate based on the most recently reported EPS and average historical earnings growth rates. Price/projected earnings is one of the five value factors used to calculate the Morningstar Style Box. For portfolios, this data point is calculated by taking an asset-weighted average of the earnings yields (E/P) of all the stocks in the portfolio and then taking the reciprocal of the result.

The Long term earnings indicate the estimated earnings growth over the next 5 years.

Category: India Equity funds investing principally in Indian companies. These funds invest at least 75% of total assets in equities; and invest at least 75% of equity assets in Indian equities.

NOTE**Temporary Restrictions on NRI/OCI/RI Investors**

With effect 09 February 2021 and until further notice, Sundaram India Midcap Fund ("SIMF") is observing the following temporary rules in order to comply with the new Securities and Exchange Board of India (SEBI) regulations. The rules apply to all Foreign Portfolio Investors (FPIs) such as SIMF, which invest into the Indian listed securities market, and are near the threshold of NRI/OCI/RI investors (see *definitions below) allowed in their funds.

- (i) **Subscriptions in SIMF from new and existing NRI/OCI/RI investors will not be allowed,**
- (ii) Existing NRI/OCI/RI investors will be allowed to redeem units in SIMF or switch into other Funds managed by Sundaram Asset Management Singapore Pte Ltd, where there are no restrictions on NRI/OCI/RI investments within the corpus of the relevant Fund(s);

For investors who do not fall within the NRI/OCI/RI definitions, SIMF continues to allow Subscriptions, Switches, Redemptions and Transfers as deemed appropriate to their investment needs.

*NRI: Citizens of India residing outside of India.

*OCI: Non-Indian Citizens who have been granted the status of OCI by the Government of India.

*RI: Citizens of India residing in India, i.e. generally tax residents in India.
