Analysis: Sundaram Asset Management

Fund Manager Comments

The Fund outperformed the reference index, the MSCI India Midcap TR Index, during the month. Key Contributors were Gujarat State Petronet (+30.5% due to the recent announcement of merger with subsidiary Gujarat Gas which offers better prospects in profitability and unlocking of holdco discount), Trent (+22.6% as quarterly revenue growth continued to outperform its peers, led by double-digit comps growth in Zudio), PB Fintech (+22% due to surge in fresh premiums in life and health insurance policies and new initiatives like agency sales gaining traction in Tier 2+ cities) and Lupin (+17.2% as its US business growth momentum improves with good execution, new high-margin product launches and a stabilizing generics price environment). Key Detractors were Navin Fluorine (-13.2% due to continued weakness in agrochemicals as inventory de-stocking continues, hurting its specialty revenues) and Astral (-12.2% due to lower profits for its pipes and adhesives despite healthy volume growth in the former).

During the month, the Fund added Ola Electric Mobility, India's largest electric two-wheeler player with a 39% market share. It is well-positioned to outperform the competition given its innovative scooter and motorcycle line-ups, R&D innovations in battery cell packs and vertically integrated manufacturing facilities. Weightings were also increased in Union Bank of India, AU SFB, Delhivery, Prestige Estates and BSE, while partial profits were booked in M&M Finance, Voltas, Trent, Dalmia Bharat, Max Financial Services, to fund other positions.

Economic data remained broadly in line for the month while witnessing sequential improvements. Manufacturing PMI stood at 57.5 (versus 58.1 in July) due to softening new business, output and rising competitive pressures. Services PMI rose to 60.9 (versus 60.3 in July) due to productivity gains and positive demand trends, notably in the domestic market. Monthly GST collections grew by 10% yoy at INR 1.75 trillion. Two-wheeler sales rose by 10% yoy as rural demand continues to revive while PV sales fell by 2.6% yoy due to heavy rainfall and from a high base last year. Power demand declined by 4.8% yoy as the monsoons reduced demand. Credit growth has slowed down to 13.6% yoy while air passengers travelled grew by 6.6% yoy. On the policy front, the RBI has kept repo rates unchanged and foreign exchange reserves rose to another all-time high at USD 684 bn.

The June quarter results season was supportive for the fund. Overall aggregate revenues for the portfolio's holdings grew by 12.4% yoy, while EBITDA and PAT rose by 8.3% and 9.9% respectively.

Indian markets remained buoyant in August, anchored by strong positive inflows from foreign investors and from domestic institutions for the 26th month running. We remain positive on the long-term prospects of the Indian economy.

Fund as of August 31, 2024

Category as of July 31, 2024: India Equity funds investing principally in Indian companies. These funds invest at least 75% of total assets in equities; and invest at least 75% of equity assets in Indian equities

Price/projected earnings for a stock is the ratio of the company's most recent month-end share price to the company's estimated earnings per share (EPS) for the current fiscal year. If a third-party estimate for the current year EPS is not available, Morningstar will calculate an internal estimate based on the most recently reported EPS and average historical earnings growth rates. Price/projected earnings is one of the five value factors used to calculate the Morningstar Style Box. For portfolios, this data point is calculated by taking an asset-weighted average of the earnings yields (E/P) of all the stocks in the portfolio and then taking the reciprocal of the result.

The Long term earnings indicate the estimated earnings growth over the next 5 years.

NOTE**Temporary Restrictions on NRI/OCI/RI Investors**

With effect 09 February 2021 and until further notice, Sundaram India Midcap Fund ("SIMF") is observing the following temporary rules in order to comply with the new Securities and Exchange Board of India (SEBI) regulations. The rules apply to all Foreign Portfolio Investors (FPIs) such as SIMF, which invest into the Indian listed securities market, and are near the threshold of NRI/OCI/RI investors (see *definitions below) allowed in their funds.

- (i) **Subscriptions in SIMF from new and existing NRI/OCI/RI investors will not be allowed,**
- (ii) Existing NRI/OCI/RI investors will be allowed to redeem units in SIMF or switch into other Funds managed by Sundaram Asset Management Singapore Pte Ltd, where there are no restrictions on NRI/OCI/RI investments within the corpus of the relevant Fund(s);

For investors who do not fall within the NRI/OCI/RI definitions, SIMF continues to allow Subscriptions, Switches, Redemptions and Transfers as deemed appropriate to their investment needs.

*NRI: Citizens of India residing outside of India.

*OCI: Non-Indian Citizens who have been granted the status of OCI by the Government of India.

*RI: Citizens of India residing in India, i.e. generally tax residents in India.
