Analysis: Sundaram Asset Management

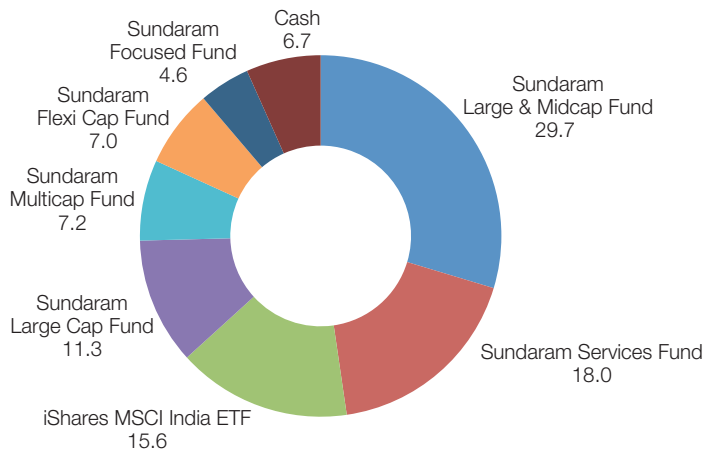

Fund Manager Comments

The Fund underperformed the reference index, MSCI India TR Index, during the month. Holdings in Sundaram Multi Cap Fund, Large Cap Fund and Flexi Cap Fund performed broadly in line while Sundaram Large and Midcap Fund and iShares MSCI India ETF underperformed. During the month, the fund increased its holding in Sundaram Large & Midcap Fund to increase allocation towards mid and large caps. From a market cap perspective, the portfolio continues to be positioned towards large caps at 59% of portfolio, with Mid and Small caps accounting for 20.4% and 11.4% respectively.

Economic data witnessed some sequential softening for the month. Manufacturing PMI fell to 58.1 (versus 58.3 in June) amidst smaller increases in new orders and output. Services PMI remains buoyant at 60.3 (versus 60.5 in June) despite a 7-year high selling price inflation. Monthly GST collections were the third highest at INR 1.82 trillion, a growth of 10.3% yoy. However, two-wheeler sales surged by 17.2% yoy on the back of good monsoon rains while PV sales surged by 10.2% yoy driven by new model launches and attractive pricing. Power demand increased by 3.5% yoy as monsoons brought down temperatures while credit growth moderated to 14% yoy. On the policy front, the RBI has kept repo rates unchanged, and the newly formed NDA government presented its Union Budget for the full financial year 2024-25, focusing on youth employment, MSME credit schemes and tax adjustments. Foreign exchange reserves rose to USD 667 billion.

The June quarter results season was a mixed one for the Indian market. Overall aggregate revenues for 70% of companies reported in Nifty 100 grew by 11.8% yoy, while EBITDA and PAT grew by 10.7% and 9.9% yoy respectively. Sequentially, Revenue, EBITDA and PAT decelerated by 2.3%, 7% and 10.4% respectively.

Indian markets rose further in July, supported by robust inflows from foreign investors and domestic institutions. We remain positive on the long-term prospects of the Indian economy.

Disclaimer

An Offer Document for the Sundaram India Opportunities Fund ("Fund") may be obtained from the Manager or any of its appointed distributors. **Investors should read the Offer Document (i.e. the Information Memorandum) before deciding whether to subscribe for or purchase units in the Fund ("Units").** All applications for Units must be made on application forms accompanying the Offer Document or otherwise as described in the Offer Document.

Past performance of the Fund or the Manager and any prediction, projection or forecast on the economy or markets are not necessarily indicative of the future or likely performance of the Fund or the Manager. Any extraordinary performance may be due to exceptional circumstances which may not be sustainable. The value of Units and any income from the Fund may fall or rise. The above information is **strictly for general information only and must not be construed as an offer or solicitation to deal in Units**, nor a recommendation to invest in any company mentioned herein. The Manager reserves the right to make any amendments to the information at any time, without notice. Performance data and analytics provided above are as of the stated dates.

Investments in unit trusts are not obligations of, deposits in, or guaranteed or insured by Sundaram Asset Management Singapore, or any affiliates or distributors. **The Fund may use or invest in financial derivative instruments and you should be aware of the risks associated with investments in financial derivative instruments which are described in the Fund's Offer Document.** An investment in unit trusts is subject to investment risks and foreign exchange risks, including the possible loss of the principal amount invested.

Investors may wish to seek advice from a financial adviser before making a commitment to invest in Units. In the event an investor chooses not to seek advice from a financial adviser, the investor should consider carefully whether the Fund is suitable for his/her investment.
