Monitor Nifty Midcap Index and Nifty Midsmall cap Index as a percentage of Nifty Index

Performance of each component fund will be monitored on a continuous basis to ensure that the best of the breed from the Sundaram house are being chosen for SIOF

Allocations across cap curves will be monitored on a periodic basis to ensure an optimal exposure for the Fund

Monitor Price/Earnings (P/E) Premiums between Mid/Small cap indices and Nifty index

P/E premium/discount indicator works best as a caution indicator i.e. when the midcap P/E premium is 10%+ and small caps are trading at flat or at a premium.

Does not work as a buy signal when the P/Es are at discount.
