Sundaram Multi Asset Fund - Overview

- Sundaram Multi Asset Fund (SMAF) is a diversified Fund of Funds with exposure to equity and non-equity correlated asset classes with the objective of delivering steady, positive returns over the medium and long term.
 - Target is to pay approximately 5% per annum via quarterly dividends.
- The Fund can allocate up to 60% in equities and up to 60% into non-equities.
 - Equity portion of the AUM is invested via suitable funds into high-quality global large cap equities.
 - Non-Equity portion of SMAF is invested into a Life Settlements Fund which has a long track record of generating absolute annual returns irrespective of the global capital market movements.
 - In 2022, the Life Settlement Fund generated +9.8% return (inclusive of dividends paid out) at a time when the Bloomberg Aggregate Global Bond Index (Hedged) returned -11.2%.
 - As of April 2023, asset allocation of the Fund was 61% in a Life Settlements Fund and 30% in a Global Equity Fund.
- Since inception in December 2020 and as of end April 2023 the Fund has returned 3.3%* on an annualized basis
 - As per Morningstar peer group rankings as of end April 2023, the Fund is in the 13th percentile on a one-year basis and in the 4th percentile since inception.

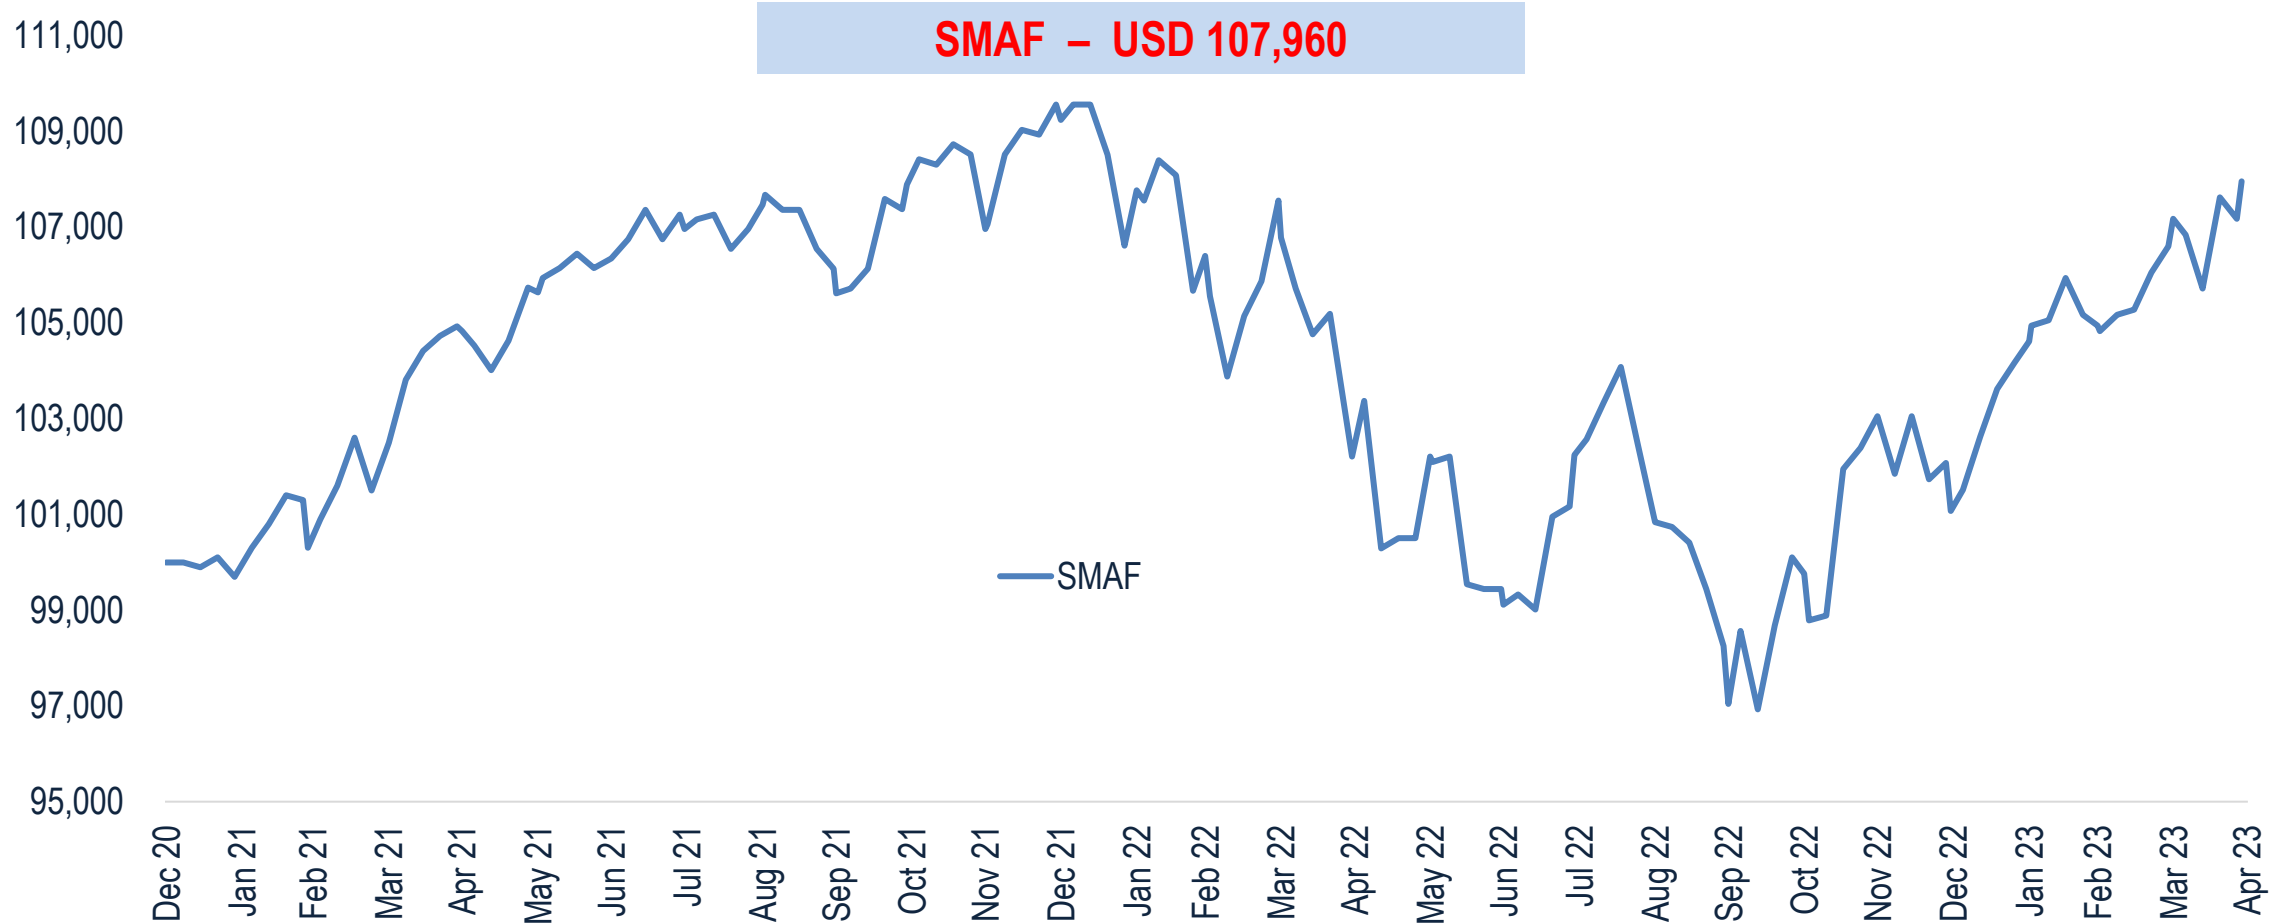

*** Fund inception date: 30 December 2020. Performance details provided are net of fees for the Classic unit class and includes dividends paid out. Past performance may or may not be sustained in the future. Performance as of April 28, 2023 with the month end NAV generated specifically for performance purposes.*

Asset Allocation

- Intention is to operate a diversified Fund in which around 50% of the allocation is not correlated to global equity markets.
- Asset allocation as of end April 2023 is as below:

Value of \$100,000 invested at launch in SMAF

Fund inception date: 30 December 2020. Past performance may or may not be sustained in the future.

Life Settlements Fund

- BlackOak Investors LP (BlackOak) is a Life Settlements Fund with a vintage of over 9 years and AUM of USD 474.9 Mn. The BlackOak Strategy AUM is USD 636.9 Mn, which includes BlackOak and other managed accounts.
- BlackOak will acquire policies from individual policy holders and take on the future premium commitments in exchange for receiving the death benefit proceeds upon the death of the policy insured.
- Manager of BlackOak is SL Investment Management (SL).
- SL is authorized and regulated by the UK Financial Conduct Authority as an Alternative Investment Fund Manager.
- Established in 1990, SL has managed or advised over 30 collective investment vehicles comprising assets in excess of \$8.4bn.
- SL currently manages a total AUM of USD 1,170.3 Mn in life settlements strategies.

Data as of March 31, 2023

What is a Life Settlement?

- A Life Settlement is the sale of an existing U.S. life insurance policy to a third-party buyer.
- In exchange for payment, the buyer becomes the owner and beneficiary of the policy.
- The purchaser is responsible for future premium obligations and ultimately collects the face value when the policy matures.

Source: SL Investment Management

Gottlieb, Daniel; Smetters, Kent. "Lapse Based Insurance." Apr 15, 2014.

Size of the Life Settlement market

- The U.S. life insurance market is a multi-trillion dollar industry, an estimated \$20 trillion of life coverage currently in force. Approximately 144 million inforce policies comprised of universal life, variable universal life, term and whole life.
- An estimated 88% of all life insurance policies are lapsed or surrendered back to the insurance carriers.
- Life settlement industry sources estimate that over \$200 billion worth of policy benefits have been settled by the life settlement market and are actively being managed.
- Market continues to grow and attracts large institutional buyers as Baby Boomer population retires.

Source: SL Investment Management

Investment Attractions

Low Market Correlation

Longevity risk unrelated to performance of capital markets

Excellent Risk-Adjusted Returns

Current market conditions enable a superior average discount rate prior to servicing costs

Insurance Backed Assets

Maturity payments backed by highly-rated and regulated US insurance companies.

Established and Regulated Market

43 US states have comprehensive Life Settlement laws and regulations

Robust Performance

Positive returns achieved even if insured lives survive for longer than initially expected

Social Benefit

Provides individuals access to the value of an otherwise illiquid asset

Key Risks

- Liquidity Risk – BlackOak is not a liquid fund. Typically, it takes 2 months for the redemption proceeds to be paid out.
 - Redemption pay out in exceptional cases could take upto 7 calendar months.
 - Mitigating factors:
 - Gating of redemption requests: Manager may limit the redemption requests to 10% of the Units of the Fund or Class and in such event the limitation will apply pro rata.
 - Fund dealing is on a weekly basis.
- BlackOak Valuation – Based on internal valuation methodology.
 - Historic track record of the fund in this regard has been good thus far. Actual to expected mortality in terms of number of policies is 156% and actual to expected mortality in terms of value is 196% as of 31 December 2021.
 - KPMG has examined the performance track record of BlackOak from 1 February 2014 to 31 December 2021. In their opinion, the performance track record reflects the performance of the Fund over the performance track record period.
- Market Risk – Investments by SMAF are subject to market fluctuations and may be adversely affected by political instability, exchange controls and other restrictions imposed by authorities in relevant countries

For detailed description of these risks and other investment risks, please refer the Fund Information Memorandum

Appendix

As with any securities investment, the value of a portfolio can go up or down depending on the factors and forces affecting the capital markets. Investors in the proposed fund are not offered any guaranteed returns and could potentially lose the principal amount invested. SAMS is not responsible or liable for losses resulting from the operations of the proposed fund. Past performance of the Fund Manager may not be indicative of the performance in the future. The value of any portfolio illustrated in this document may be affected by changes in the general market conditions, factors and forces affecting capital markets in particular, level of interest rates, rates of exchange between currencies, various other market related factors such as trading volumes, settlement periods and transfer procedures. Levels and basis of taxation may change from time to time. The liquidity of investments are inherently restricted by trading volumes in the securities in which it invests.
